

Fiocchi Inter Regional Squad Match

On the Friday at the start of the Bisley meeting, the Fiocchi Match was held among teams from the NSRA Regional Squads. Scotland managed to find some individuals who could make it to Bisley for the extra day and fielded one team in each of the Free-rifle and in the English Matches. This match is held on the Rim-fire range and is shot on automatic target changers. This makes it useful preparation for any other similar events. It also gave team members another opportunity to zero in on the new 10.4mm bull at 50 metres.

Fiocchi generously provide all teams with their ammunition. It's a condition of the match that Fiocchi is used in it.

Scotland representatives acquitted themselves admirably.
