

BSSRA SCHOOLS NATIONAL MATCH (Postal) 2016 - Results

England once again showed their class in this match, winning comfortably from Scotland by more than 20 points - a superior average of over a point per card. England's score was only three points below their score from last year, but Scotland were ten points worse off. In a very creditable third place with their best-ever score and only five points behind Scotland were Northern Ireland, their highest placing since 2010. Fourth were Channel Islands and fifth were Wales. Unfortunately Wales could only raise one team this year. England's considerable strength in depth is shown by the fact that their B team's score would have beaten all the other A teams.

There were four 'possibles' scored this time: one from L Whitt of Channel Islands, one from L Figi of England but there were two from Miss A Vlas of England, who becomes only the third shooter to achieve a score of 200 in this match.
